## Technical Specifications:

### Material:

**Liner:** 13-gauge polyester, orange color

**Coating:** Black latex foam palm coating

**Size:** 8, 9, 10

**Weight:** 40g to 50g

## Description:

The L1515 glove is designed for a combination of comfort and durability, featuring a 13-gauge orange polyester liner and a black latex foam coating on the palm. Its high abrasion resistance and breathable fabric make it ideal for a variety of industrial tasks.

## Features:

### ★ Durability & Performance:

High-quality latex rubber ensures superior abrasion resistance, making it suitable for tough tasks.

### ★ Comfort & Breathability:

Breathable polyester liner enhances user comfort, allowing airflow during extended use.

### ★ Secure Fit:

Elasticated wrist ensures a snug fit, preventing debris from entering the glove.

## Applications:

- ★ Aerospace
- ★ Automotive
- ★ Engineering
- ★ Oil & Gas
- ★ Steel & Metals
- ★ Wet Work
