

900RG TRAFFIC BATON CHARGABLE

PRODUCT DATA SHEET

Technical Specifications:

Model:	900RG
Light Color:	Red & Green
Light Source:	LED
Battery Type:	Rechargeable battery
Charging Method:	AC charger
Body Material :	ABS / Polycarbonate
Operating Modes:	Flashing and steady light
Visibility Range:	Up to 500 meters (approx.)
Working Temperature:	-10°C to +50°C
Length:	Approx. 54 cm

Description:

The 900RG Rechargeable Traffic Baton is designed for effective traffic control, emergency signaling, and crowd management. Built with high-visibility LED lighting and a durable body, it provides reliable performance for police, security personnel, construction workers, and event marshals. The rechargeable battery ensures long operational time and cost efficiency.

Features:

- *High-intensity red and green LED illumination
- *Multiple lighting modes (steady and flashing)
- *Rechargeable battery for repeated use
- *Lightweight and ergonomic grip handle
- *High visibility for day and night use
- *Durable impact-resistant body
- *Easy push-button operation

Applications:

- *Traffic control
- *Road safety management
- *Emergency signaling
- *Security services
- *Construction sites
- *Parking management
- *Event crowd control
