### Description:

The 92087 Grey Frame Safety Spectacles are ultra-lightweight protective eyewear designed for comfort, style, and reliable eye protection in industrial and outdoor environments. Featuring a sporty design concept with hinged side arms, these spectacles ensure a flexible and secure fit for long-duration use. The smoked lens provides effective UV protection and glare reduction, making them suitable for outdoor applications. Built with an ultra-light construction, the 92087 offers excellent wearing comfort while maintaining durability and safety performance.

### Features

- \*Ultra-lightweight construction for all-day comfort
- \*Sporty modern design for improved wearer acceptance
- \*Hinged side arms for flexible and secure fit
- \*Smoked lens reduces glare and enhances outdoor visibility
- \*UV protection for outdoor working conditions
- \*Durable polycarbonate lens for impact resistance
- \*Comfortable fit for extended use

### Applications:

- \*Outdoor construction work
- \*Road and infrastructure projects
- \*Industrial maintenance
- \*Warehouse and logistics operations
- \*General safety and dust protection
