Description:

The AB-53 ABS Safety Helmet is a high-quality industrial head protection helmet manufactured from special ABS plastic, offering excellent impact resistance, durability, and long service life. Designed with air ventilation holes and protective fringes, the helmet ensures effective internal cooling and enhanced lateral protection, improving wearer comfort in demanding work environments.

Features:

- ★ Manufactured from durable ABS plastic
- ★ Air vent holes improve airflow and wearer comfort
- ★ Fringed design enhances lateral protection
- ★ Concave shell allows easy installation of accessories
- ★ Compatible with face shields and hearing protectors
- ★ 4-point ratchet suspension ensures secure and comfortable fit
- ★ Suitable for prolonged industrial use

Applications:

- ★ Construction sites
- ★ Industrial plants and factories
- ★ Oil & gas facilities
- ★ Maintenance and utility works
- ★ Warehousing and logistics
- ★ General industrial safety use
