Description:

The ANH-5 Steif Winter Cap for Helmet is designed to provide enhanced warmth and comfort during cold weather conditions. This thermal cap fits seamlessly under safety helmets, offering additional protection without compromising the helmet's fit or functionality.

Features:

- ★ **Thermal Insulation:** Keeps the head warm during cold weather conditions.
- ★ **Helmet Compatibility:** Designed to fit snugly under most safety helmets.
- ★ **Breathable Fabric:** Maintains comfort during extended wear.
- ★ **Secure Fit:** Stays in place without slipping inside the helmet.
- ★ **Moisture-Wicking:** Helps reduce sweat buildup.

Applications:

- ★ Construction sites in winter conditions
- ★ Outdoor industrial work environments
- ★ Mining and cold storage facilities
- ★ Emergency and rescue operations
