AL BAHRI
HARDWARE & SAFETY EQPT. LLC.

AUTO-DARKENING WELDING HELMET

Features:

- Masks produced according to the standard of American ANSI Z87.1, CE and ISO 9001-2000.
- Suitable to be used to the welding process of MIG/MAG, stick, TIG and plasma cutting and welding
- High definition of filtering lens.
- Power source: solar cell+battery of lithium
- Could adjust all the parameters to create a best environment for welding or grinding, while protecting against all the sparks, spatter and radiation.

Technical detail:

Shade range: DIN4/9-13

LCD size: 96 X 48X 6mm

Viewing field: 93 x 43 mm

Darkening time: < 1/25,000 s

Lightening time: 0.15S~0.80S(adjustable)

Light sensibility: high/Low(adjustable)

Function: Grinding/welding choice

Ultraviolet/Infrared Protection: grade 16

Double power: Lithium battery + solar cell

Material: super light PP material from South Korea

Weight: 500g
