

CERAMIC FIBER CLOTH

PRODUCT DATA SHEET

- **Material:** Ceramic fiber
- **Thickness:** 3mm
- **Width:** 1 meter, 1.5 meter
- **Weight:** 50kg, 113kgs
- **Service Temperature:** Up to 1000 degrees Celsius
- **Composition:** Woven ceramic fibers

Description:

Ceramic fiber cloth is a lightweight, flexible, and durable material made from high-quality ceramic fibers. It is designed to withstand high temperatures and harsh environments, making it suitable for various industrial applications where thermal insulation and heat resistance are required.

Applications:

- Furnace and kiln insulation
- Pipe and duct insulation
- Expansion joint seals
- Gasketing and sealing
- Fire protection and safety curtains
- High-temperature filtration

Safety Precautions:

- Wear appropriate personal protective equipment (PPE) when working with ceramic fiber cloth, including gloves, goggles, and respiratory protection.
- Avoid prolonged or repeated exposure to airborne fibers, as they may cause respiratory irritation or other health hazards.
