

# CHALK LINE POWDER

## PRODUCT DATA SHEET

### Technical Specifications:

Property	Blue Chalk Powder	White Chalk Powder
Color	Vibrant Blue	Bright White
Composition	Fine Ground Calcium Carbonate	Fine Ground Calcium Carbonate
Visibility	High Contrast	Subtle Contrast
Usage	Outdoor and indoor	Indoor preferred
Particle Size	Ultra-fine for smooth flow	Ultra-fine for smooth flow

### Description:

Chalk Line Powder is a high-quality marking compound designed for creating sharp, clear, and long-lasting temporary or semi-permanent lines on various surfaces. Ideal for use in construction, woodworking, and general layout applications, it ensures accuracy in marking tasks.

### Features:

- ★ Highly Visible Markings: Blue provides strong contrast for outdoor use; white is ideal for lighter, indoor surfaces.
- ★ Fine Particle Composition: Ensures smooth and consistent flow through chalk line reels.
- ★ Adheres Well: Stays on surfaces without excessive dusting.
- ★ Weather Resistant (Blue): Resists fading under light rain conditions.
- ★ Non-Permanent: Easily removable from most surfaces.

### Applications:

- ★ Construction layout and marking
- ★ Woodworking and carpentry
- ★ Road and pavement marking
- ★ Landscaping and turf layout
