Description:

The DF2001 Rechargeable Flash Light is a reliable and energy-efficient lighting solution designed for industrial, emergency, security, and everyday use.
Equipped with a high-efficiency LED and a built-in rechargeable battery, this flashlight delivers bright illumination, long operating time, and consistent performance, making it an ideal alternative to disposable-battery flashlights.

Features:

★Rechargeable – eliminates frequent battery replacement
★Bright LED for clear visibility
★Compact design for easy handling
★Energy-efficient and eco-friendly
★Reliable lighting during power failures
★Long service life

Applications:

★Emergency and backup lighting
★Industrial and maintenance work
★Security and patrol
★Automotive and workshop use
★Home and office emergency kits
