

Technical Specifications:

Dimensions	50mm x 50m, 63mm x 50m, 100mm x 50m
Backing	Resin Cloth
Abrasive Grain	Aluminium Oxide
Grit Sizes	40, 60, 80, 100, 120, 150, 180, 220, 240, 280, 320, 360, 400, 600
Brand	BAAB
Suitable For	Rust, Metal, Paint, and Non-Ferrous materials

Description:

Industrial-quality Emery Rolls supplied in handy, easy-to-use dispenser packaging. These rolls use premium-grade aluminum oxide grain bonded to a strong but tearable J-weight cloth backing. Ideal for a variety of general-purpose sanding, maintenance, and polishing tasks. Widely used in the automotive industry.

Features:

- ★Premium aluminum oxide grain ensures high cutting efficiency and longevity.
- ★Strong yet flexible cloth backing allows easy tearing and adaptability to shapes.
- ★Effective on a wide range of surfaces including rusted metal, paint, and soft metals.
- ★Ideal for automotive repair, maintenance work, and polishing tasks.

Applications:

- ★Rust & Paint Removal from metal surfaces
- ★Deburring & Polishing in metalworking
- ★Surface Preparation before painting/coating
- ★Tool & Machinery Cleaning
- ★Automotive Repairs
