Description:

The DK600 Waterproof Flash Light is a reliable and durable lighting solution designed for industrial, outdoor, and emergency applications.

Built with a rugged waterproof housing, this flashlight delivers bright and stable illumination while operating in wet, dusty, and harsh environments. Powered by 2 x 1.5V AA batteries, it ensures easy battery replacement and dependable performance.

Features:

- ★ Waterproof construction for reliable use in wet environments
- ★ Powered by easily available AA batteries
- ★ Bright LED with low energy consumption
- ★ Durable and impact-resistant body
- ★ Compact and easy to carry
- ★ Ideal for emergency and outdoor use

Applications:

- ★ Construction and industrial sites
- ★ Outdoor and camping activities
- ★ Emergency and rescue operations
- ★ Automotive and maintenance work
- ★ Home emergency lighting
