

# KEVLAR KNIT SLEEVE WITH LEATHER

## PRODUCT DATA SHEET

### Technical Specifications:

Material	Kevlar® Knit + Leather
Color	Yellow (Kevlar) with Leather Patch
Length	35cm
Design	Elastic knit with leather reinforcement
Fit	Stretch fit

### Description:

The Kevlar Knit Sleeve with Leather is designed to provide high-level cut resistance and heat protection for the forearm in demanding industrial environments.

Manufactured from aramid (Kevlar®) knitted fabric with an added leather reinforcement section, this sleeve offers enhanced durability, abrasion resistance, and protection against sharp edges and moderate heat exposure.

Ideal for workers handling glass, metal sheets, and sharp components.

### Features:

- ★ High cut resistance Kevlar knit
- ★ Leather reinforcement for added durability
- ★ Protection against sharp edges and abrasion
- ★ Heat resistant material
- ★ Flexible and comfortable for extended wear
- ★ Easy to wear over gloves

### Applications:

- ★ Glass handling
- ★ Metal sheet fabrication
- ★ Automotive industry
- ★ Steel and iron works
- ★ Welding support tasks
- ★ Construction and maintenance
