

LS01 LANE DIVIDER – YELLOW & PINK

PRODUCT DATA SHEET

 **Plus**

Technical Specifications:

Model	LS01
Product Type	Traffic Lane Divider
Material	Heavy-Duty Recycled Rubber
Available Colors	Yellow, Pink
Installation	Surface Mounted
Visibility	High-Visibility Finish
Weather Resistance	UV & Weather Resistant
Impact Resistance	High
Application	Lane Separation & Traffic Guidance

Description:

The LS01 Lane Divider is a durable traffic management device designed to provide effective lane separation, improve road safety, and guide vehicle movement. Manufactured from heavy-duty recycled rubber, it offers excellent impact resistance, weather resistance, and long-lasting performance in both indoor and outdoor environments. Available in Yellow and Pink color options, the LS01 Lane Divider is suitable for permanent or temporary traffic management applications, including roads, parking facilities, industrial premises, warehouses, and designated traffic zones. Its modular design allows multiple units to be installed continuously for effective lane delineation.

Features:

- ★ Available in Yellow and Pink color options
- ★ Heavy-duty rubber construction for long service life
- ★ High visibility for improved traffic guidance
- ★ Excellent resistance to impact, UV rays, and harsh weather
- ★ Modular design for continuous lane separation
- ★ Easy installation using anchor bolts
- ★ Low maintenance requirements
- ★ Suitable for both permanent and temporary traffic management

Applications:

- ★ Highways and roads
- ★ Parking lots and parking garages
- ★ Industrial facilities
- ★ Warehouses and logistics centers
- ★ Bicycle lanes
- ★ Toll plazas
- ★ Bus lanes
