

NORTH ULTRASHELL WELDING HELMET

PRODUCT DATA SHEET

Technical Specifications:

Model:	North Ultrashell
Material:	Polypropylene (PP) Shell
Helmet Type:	Welding Helmet (Lift-Front Lens Holder)
Color:	Black
Lens Size:	110 × 90 mm
Lens Included:	No
Standards:	CE Certified
Protection:	Heat, sparks, and debris resistant

Description:

The North Ultrashell Welding Helmet is a durable, lightweight helmet designed for industrial welding applications. Featuring a lift-front lens holder, it allows easy insertion and replacement of lenses (not included). Made from robust polypropylene, the helmet provides reliable protection against sparks, heat, and debris while maintaining comfort during extended use.

Features:

- ★ Lift-Front Lens Holder: Allows easy lens replacement and viewing convenience
- ★ Durable Polypropylene Shell: Impact-resistant and lightweight
- ★ Professional Design: Suitable for various welding tasks
- ★ Comfortable Fit: Lightweight and ergonomic for prolonged use
- ★ Industrial Safety: Protects against sparks, heat, and welding debris

Applications:

- ★ MIG, TIG, Stick welding
- ★ Plasma cutting
- ★ Fabrication workshops
- ★ Industrial and manufacturing welding operations
- ★ Maintenance and repair welding
