

PERSONNEL & LOAD WINCH – MODEL 900026

PRODUCT DATA SHEET

Technical Specifications:

| | |
|--------------------------|------------------------|
| Model | 900026 |
| Brand | STEIF |
| Product Type | Personnel & Load Winch |
| Anchorage Capacity | 1 User |
| Maximum Rated Load | 140 kg |
| Wire Rope Length | 10 – 35 meters |
| Maximum Lifting Distance | 35 meters |
| Wire Rope Diameter | Ø 5 mm |
| Wire Rope Material | Galvanized steel |
| Operation Type | Manual |
| Standard | EN 795: 2012 Type C |

Description:

The Personnel & Load Winch – Model 900026 is a reliable lifting and lowering device designed for safe handling of personnel and materials in vertical access and confined space operations. Equipped with a galvanized steel wire rope, this winch ensures durability, corrosion resistance, and smooth operation. It is suitable for controlled lifting and retrieval applications where safety and precision are critical.

Features

- *High-strength galvanized steel wire rope for durability
- *Maximum lifting height up to 35 meters
- *Suitable for both personnel and load handling
- *Smooth and controlled lifting/lowering mechanism
- *Compact and portable design
- *Corrosion-resistant components for long service life
- *Easy integration with tripods and anchorage systems

Applications:

- *Confined space entry and rescue
- *Construction and maintenance work
- *Industrial inspection operations
- *Tank, silo, and manhole access
- *Utilities and infrastructure projects
- *Emergency retrieval systems
