

Technical Specifications:

Model	RK-TC-078B
Type	Square Cone With Sleeve
Height	75 cm
Material	High-strength rubber base with reflective film
Color Options	Yellow/Black & Red/White (diagonal stripes)
Base Shape	Square
Reflective Material	High-intensity prismatic reflective sheeting

Description:

The RK-TC-078B/A Square Cone Sleeves are high-visibility traffic cone covers designed for enhanced visibility and road safety. They are made with durable, reflective materials and fit over 75 cm square base traffic cones. Ideal for indoor and outdoor hazard marking in construction zones, parking areas, and traffic control applications.

Features:

- ★High Reflectivity – Offers enhanced night-time and low-light visibility.
- ★Weather-Resistant – Performs well in rain, heat, and cold conditions.
- ★Dual Color Variants – Yellow/Black for caution, Red/White for restriction.
- ★Snug Fit Design – Prevents slipping or dislodging in windy conditions.
- ★Reusable and Portable – Easy to install, remove, and store.
- ★Durable Construction – Built for rough environments and heavy use.

Applications:

- ★Road Work & Construction Sites
- ★Parking Management
- ★Industrial & Warehouse Safety
- ★City Maintenance Projects
- ★ Temporary Hazard Marking
- ★School & Event Crowd Control
