

Retractable Top for Black Queuing Barrier

PRODUCT DATA SHEET

Technical Specifications:

Product Type	Retractable Belt Cassette
Compatibility	Black Queuing Barrier Posts
Housing Material	High-Impact ABS / Engineering Plastic
Belt Material	High-Density Nylon
Belt Color	Black, Red, Green , Blue Yellow
Belt Length	Approx. 1.5 -2
Belt Width	Approx. 48-50 mm
Retraction Mechanism	Spring-Loaded Automatic Retractable System
Locking System	Safety Belt Lock
Belt Connection	4-Way Universal Receiver

Description:

The Retractable Top for Black Queuing Barrier is a replacement belt cassette designed for use with compatible black queuing barrier posts. It features a durable retractable belt mechanism that enables quick and secure connection between barrier posts, providing an efficient solution for crowd control and queue management. Manufactured with a robust housing and high-strength nylon belt, the retractable top ensures smooth belt extension, automatic retraction, and secure locking for reliable performance in commercial and public environments.

Features:

- ★ Replacement retractable top for queuing barrier posts
- ★ Smooth automatic belt retraction
- ★ Durable and wear-resistant nylon belt
- ★ High-impact housing for long service life
- ★ Four-way belt connection for flexible queue layouts
- ★ Quick and easy installation
- ★ Secure locking mechanism for enhanced safety
- ★ Suitable for high-traffic commercial environments
- Low maintenance and reliable performance

Applications:

- ★ Airports
- ★ Banks
- ★ Hotels
- ★ Retail stores
- ★ Shopping malls
- ★ Hospitals
- ★ Exhibition and convention centers
