

# SILICON CARBIDE PAPER

## PRODUCT DATA SHEET

### Grit Sizes Available:

60, 80, 100, 120, 150, 180, 220, 240, 280, 320, 360, 400,  
600, 800, 1000, 1200, 1500

### Description:

Silicon carbide grit paper is a high-performance abrasive used for wet and dry sanding. Its sharp grit and flexible backing make it ideal for precision polishing and finishing applications across a wide range of industries.

### Features:

- ★Wet & dry use
- ★Excellent for precision work
- ★Consistent grit distribution
- ★Smooth, high-quality finishes

### Applications:

- ★Automotive – Bodywork sanding and paint preparation
- ★Furniture & Woodwork – Fine sanding and surface finishing
- ★Leather & Toys – Smooth finishing on delicate surfaces
- ★Jewelry & Handicrafts – Precision polishing
- ★Household & Electrical Appliances – Finishing outer shells
- ★Lacquerware – High-gloss polishing and refinishing
