

STEIF SS WIRE TOOL LEASH

PRODUCT DATA SHEET

Technical Specifications:

Material	TPU + Steel / PU + Steel
Stretched Length	>1.5m
Inner Steel Diameter	0.8mm, 1mm (default 1mm)
Outer Cord Diameter	2.5mm, 3mm (default 3mm)

Description:

The STEIF Stainless Steel Wire Tool Leash is a heavy-duty, stretchable safety lanyard designed to prevent tool drops and enhance workplace safety. Constructed with a stainless-steel core and TPU/PU coating, it provides exceptional strength, durability, and flexibility. Ideal for securing tools, fishing rods, and other valuable equipment in demanding environments.

Features:

- ★High Strength – Stainless steel wire core ensures durability and prevents snapping.
- ★Stretchable Design – Extends over 1.5m for ease of movement.
- ★Protective Coating – TPU/PU outer layer resists wear, corrosion, and abrasion.
- ★Versatile Use – Ideal for tool safety, fishing rod security, and outdoor applications.
- ★Customizable Sizes – Inner and outer diameters can be adjusted to requirements.

Applications:

- ★Construction site tool safety
- ★Fishing rod security
- ★Climbing gear attachment
- ★Outdoor equipment lanyard
- ★Industrial maintenance safety
