Chinstrap: 3-point adjustable chinstrap for secure fit

Ventilation: No ventilation holes

Goggles: No integrated or attached goggles

Size: Adjustable to fit head sizes 52-62 cm

Weight: Approximately 400g

Color: White, Orange

Description:

The Steif Climbing Helmet with a white ABS shell and no ventilation holes is designed for professionals who need reliable head protection in both industrial and outdoor environments. Its non-vented design is perfect for dusty or hazardous conditions, while the robust ABS shell offers high-impact resistance. The helmet features a comfortable 3-point adjustable chinstrap and internal padding, ensuring a secure fit during long hours of use. Whether for industrial safety or climbing activities, this helmet delivers the protection and comfort needed to perform in demanding conditions.

Features:

- ★ **Durability:** The ABS shell is highly resistant to impacts and punctures, providing long-lasting protection.
- ★ **Non-Vented Design:** Eliminates the risk of debris entering the helmet, offering better protection in dusty or hazardous environments.
- ★ **Adjustable Fit:** The 3-point chinstrap is fully adjustable to accommodate various head sizes and shapes, ensuring a snug fit.
- ★ **Comfortable Padding:** Internal padding enhances comfort, reducing pressure points during extended wear.
- ★ **Easy Maintenance:** The helmet's smooth surface is easy to clean and maintain, ensuring hygiene in industrial settings.

Applications:

- ★ **Industrial safety:** Construction sites, factories, and other heavy-duty environments
- ★ **Climbing:** Mountaineering, caving, and activities where head protection without ventilation is necessary
- ★ **General safety:** Ideal for environments requiring protection from impact without exposure to excessive heat
