

STEIF FOAM EARPLUG CORDED – EC-1003A-C

PRODUCT DATA SHEET

Technical Specifications:

Product Name	STEIF Foam Earplug Corded
Model	EC-1003A-C (111)
Type	Disposable Corded Foam Earplug
Material	Soft PU Slow-Recovery Foam
Standard:	CE 2777, EN 352-2:2002
SNR:	36dB
Cord Type	Flexible PVC / Polymer Cord
Design	Tapered

Description:

The STEIF EC-1003A-C Corded Foam Earplug is designed to provide high-performance hearing protection in demanding industrial environments. Made from soft, hypoallergenic foam, these earplugs expand gently inside the ear canal to create a secure, noise-reducing seal. The tapered shape allows easy insertion and removal, while the connecting cord helps prevent loss and keeps the earplugs readily accessible when not in use.

Features:

- ★ High noise reduction – SNR 36 dB
- ★ Soft, hypoallergenic foam for maximum comfort
- ★ Smooth surface prevents irritation
- ★ Tapered shape for easy insertion and removal
- ★ Secure, comfortable noise-reducing seal
- ★ Corded design prevents loss during work

Applications:

- ★ Construction sites
- ★ Heavy manufacturing
- ★ Mining and drilling
- ★ Metal and steel industries
- ★ Airports and high-noise areas
- ★ Industrial maintenance
