

STEIF LG08 HALF PROTECT RUBBER OVERSHOE

PRODUCT DATA SHEET

Technical Specifications:

Material	High-quality industrial rubber
Color	Black
Design	Half-coverage overshoe with steel toe
Slip Resistance	Anti-slip textured sole for enhanced traction
Waterproof	100% waterproof
Chemical Resistance	Protects against oils, acids, and chemicals
Durability	Long-lasting and tear-resistant

Description:

The STEIF LG08 Half Protect Rubber Overshoe is designed for industrial workers who need protection from spills, water, oil, and hazardous substances. With its half-coverage design, it offers flexibility while ensuring foot safety in challenging work environments.

Features:

- ★Half-Coverage Design – Allows flexibility and easy movement.
- ★100% Waterproof Protection – Keeps feet dry in wet and hazardous conditions.
- ★Slip-Resistant Sole – Provides excellent grip on slippery surfaces.
- ★Chemical & Oil Resistance – Shields against industrial spills and contaminants.
- ★Durable Rubber Material – High tear and abrasion resistance for longevity.
- ★Comfortable Fit – Designed to fit easily over standard footwear.
- ★Lightweight & Flexible – Ensures comfort and ease of movement during work.

Applications:

- ★Construction & Industrial Sites – Protection from chemicals, oil, and debris.
- ★Chemical & Pharmaceutical Industries – Shields against hazardous spills.
- ★Food Processing Units – Ensures hygiene and slip resistance.
- ★Agriculture & Fisheries – Guards against mud, water, and dirt.
- ★Maintenance & Cleaning Services – Keeps feet safe and dry.
