

### Technical Specifications:

**Model:** YY333

**Lens Material:** Polycarbonate (impact-resistant)

**Lens Coating:** Anti-scratch and UV protection

### Description:

The STEIF Safety Spectacle YY333 provides robust eye protection with a sleek, lightweight design. Ideal for use in industrial, construction, and laboratory environments, these spectacles are designed to offer maximum comfort and clarity while safeguarding against impact, dust, and chemical splashes.

### Features:

- ★ **High Impact Resistance:** Durable polycarbonate lens protects against flying debris.
- ★ **UV Protection:** Blocks harmful UV rays, making it suitable for outdoor use.
- ★ **Anti-Scratch Coating:** Maintains clear vision even in rugged environments.
- ★ **Comfortable Fit:** Lightweight design with ergonomic nose pads for prolonged wear.
- ★ **Wide Field of View:** Frameless lens design ensures unobstructed vision.

### Applications:

- ★ **Industrial Work:** Protection during cutting, grinding, and drilling operations
- ★ **Construction Sites:** Safeguards against dust, debris, and splashes
- ★ **Laboratories:** Protects against chemical splashes
- ★ **Outdoor Activities:** UV protection for workers in sunny environments
- ★ **General Maintenance:** Eye protection for various tasks
