Description:

The STEIF Welding Hand Shield 732 is a durable, hand-held welding face shield crafted from high-quality polypropylene (PP). It provides optimal face protection from harmful welding light, sparks, and spatter. Ideal for professional welders needing portable protection.

Features:

- ★ Durable Polypropylene Construction – Provides heat and impact resistance
- ★ Clear Polycarbonate Lens – High clarity, durable viewing window
- ★ Hand-Held Design – Convenient and flexible for quick-use welding tasks
- ★ Ergonomic Grip – Comfortable to hold for extended operations
- ★ Fixed Lens Slot – Easily replaceable filter lens
- ★ Compact & Portable – Suitable for mobile or workshop use

Applications:

- ★ Arc welding (SMAW)
- ★ MIG & TIG welding
- ★ Fabrication workshops
- ★ Construction sites
- ★ Maintenance & repair tasks
