

STEIF ZINC COATED SCREW HOSE CLAMP

PRODUCT DATA SHEET

Technical Specifications:

Material: High-grade carbon steel

Coating: Zinc-plated for enhanced corrosion resistance

Clamp Type: Screw-type adjustable hose clamp

Size Range: 22-30mm, 25-35mm, 30-40mm, 35-50mm, 40-55mm, 45-60mm, 55-70mm, 60-80mm, 70-90mm, 85-100mm, 90-120mm, 110-140mm, 135-165mm, 158-190mm, 260-292mm

Screw Type: Slotted hex-head screw

Description:

The STEIF Zinc Coated Screw Hose Clamp is a reliable and durable fastening solution designed for securing hoses in various industrial, automotive, and plumbing applications. The high-quality zinc coating provides superior corrosion resistance, making it ideal for use in challenging environments.

Features:

- ★ **Corrosion Resistance:** Zinc coating protects against rust and corrosion, extending product life.
- ★ **High Tensile Strength:** Provides a secure and leak-proof connection.
- ★ **Adjustable Design:** Screw mechanism allows for precise tightening and easy installation.
- ★ **Smooth Inner Surface:** Prevents damage to hoses during clamping.
- ★ **Versatile Application:** Suitable for a wide range of hose sizes and types.

Applications:

- ★ **Automotive:** Securing radiator, fuel, and coolant hoses
- ★ **Industrial:** Hose connections for air, gas, and fluid systems
- ★ **Plumbing:** Fastening water hoses and pipes
- ★ **Agriculture:** Irrigation systems and equipment fastening
- ★ **Marine:** Corrosion-resistant clamping for marine hoses
