Lens Color	Clear
Lens Material	Polycarbonate
Lens Coating	Anti-scratch
Frame Material	Lightweight flexible plastic
UV Protection	Yes
Design	Wrap-around with side shields
Temple Tips	Soft, non-slip rubber

Description:

The TF377 Safety Spectacles are high-performance protective eyewear designed to deliver maximum eye protection in industrial, laboratory, and workshop environments. Featuring a wrap-around clear polycarbonate lens, these spectacles provide full coverage and unobstructed vision while protecting against dust, debris, and minor impacts. The ergonomic design with integrated side shields ensures enhanced safety, while the lightweight frame allows comfortable use over extended periods. The black frame with red accents adds a modern look, combined with non-slip rubber temple tips for a secure and stable fit.

Features

- ★ High-performance safety eyewear for multiple environments
- ★ Wrap-around design for full eye coverage and protection
- ★ Impact-resistant polycarbonate lens
- ★ Anti-scratch coating for extended durability
- ★ Integrated side shields for lateral protection
- ★ Lightweight and flexible frame for comfort
- ★ Soft, non-slip temple tips for secure fit
- ★ Clear lens ensures distortion-free visibility
- ★ UV protection for indoor and outdoor use

Applications:

- ★ Industrial and factory work
- ★ Laboratory environments
- ★ Construction and site work
- ★ Woodworking and carpentry
- ★ Maintenance and repair tasks
