

Technical Specifications:

Model	TF388 AF
Frame Color	Black with Yellow Accents
Lens Color	Clear
Lens Material	Polycarbonate
Lens Coating	Anti-fog, Anti-scratch
Frame Material	Flexible thermoplastic
Seal Type	Soft full-face rubber gasket
Strap Type	Adjustable elastic strap
UV Protection	Yes

Description:

The TF388 AF Safety Goggles are high-performance protective eyewear designed for enhanced eye safety in industrial, laboratory, and high-risk environments. Built with a full-seal ergonomic design, these goggles provide maximum protection against dust, chemical splashes, and flying debris. The clear impact-resistant polycarbonate lens ensures excellent visibility while maintaining strong protection. With anti-fog and anti-scratch coatings, the TF388 AF guarantees clear vision even in humid or demanding working conditions. The adjustable elastic strap and soft rubber gasket ensure a secure, comfortable fit for long-duration use.

Features

- ★ Full-seal design for maximum eye protection
- ★ Clear impact-resistant polycarbonate lens
- ★ Anti-fog coating for clear vision in humid environments
- ★ Anti-scratch coating for long-lasting durability
- ★ Soft rubber gasket ensures comfortable sealing
- ★ Adjustable elastic strap for secure fit
- ★ Ventilation system reduces fogging while blocking particles
- ★ Suitable for high-risk industrial and chemical environments

Applications:

- ★ Laboratory work
- ★ Chemical handling and processing
- ★ Construction and site work
- ★ Woodworking and fabrication
- ★ Industrial maintenance
- ★ Dust and debris-heavy environments
